

RE: Alliance Rail Holdings pre-application consultation GNWR 0506118

Jonathan,

Many thanks for confirming that timetable development continues.

Regards,

John Sears.

Dear John,

Thank you for your supportive response.

On the operational issues which you raise , we are aware of “clashes” in the current timetable. We engaged an independent consultant and agreed a remit for his output with Network Rail. Part of the remit was to provide a list of flexing sheets to Network Rail showing timetable solutions. We are now awaiting for Network Rail to confirm whether it is happy with the output from our capacity study.

Best wishes

Jonathan
