Swindon

Cc: John Czyrko

12 December 2016

Dear Steve,

John Czyrko has asked me to respond to you with regard to Grand Southern's proposed Southampton to Waterloo service.

I attach a copy of the indicative weekday timetable that we have used for revenue modelling purposes. However, please review the timetable in light of the explanatory note, which is also attached.

We are continuing discussions with Network Rail about potential paths between Waterloo and Southampton. None of the possible paths identified so far is at Southampton Central within five minutes either side of the Portsmouth to Cardiff service in either direction. Some of the Grand Southern paths identified may require flexing of freight paths but we have not so far identified any need to flex beyond Southcote Jn.

Yours sincerely,

Chris Hanks
Head of Development
